## Career Objective

---

Aspiring Java developer with a strong foundation in back-end and full-stack development, skilled in Java, JDBC, Hibernate, and SQL. Seeking an opportunity to leverage technical expertise in developing innovative and scalable software solutions in a growth-oriented organization.

## Skills & Expertise

---

**Programming Languages:** Java (Core Java, Java 8 Features)

**Frameworks/Libraries:** Spring Framework (Spring MVC, Spring JPA), Hibernate (ORM framework)

**Web Development:** Front-end Development (HTML5, CSS, JavaScript, Bootstrap)

**API:** JDBC, JSP, Servlet API.

**Databases:** MySQL

**Version Control:** Git (GitHub)

**IDE & Tools:** IntelliJ IDEA, MySQL Workbench, VS Code

**Web Servers:** Apache Tomcat

## Experience

---

**Java Enterprise Developer Trainee | X-Workz ODC**

**Aug 2024 - Feb 2025**

- Developed strong foundation in Core Java, with hands-on experience in OOP principles, exception handling, collections, and Java 8 features.
- Gained practical experience with the Spring Framework, including Spring JDBC and Spring JPA for building enterprise-level applications.
- Implemented data access layers using Hibernate as an ORM tool and JPA for efficient database interaction.
- Developed scalable, high-performance dynamic web applications using JSP, improving front-end and back-end integration for enterprise applications.

## Education

---

**Master of Computer Application (MCA)**

**2022-2024**

Visvesvaraya Technological University | **8.76 CGPA**

Mangalore, Karnataka

**Bachelor of Computer Application (BCA)**

**2019-2022**

University of Mysore | **7.76 CGPA**

Mysore, Karnataka

## Internships

---

**Flutter Intern**

**Oct 2023 – Dec 2023**

Zephyr Technologies and Solutions Pvt Ltd

Mangalore, Karnataka

- Developed a mobile application using Flutter and Firebase, focusing on clean code and efficient backend integration
- Collaborated with senior developers and UI/UX designers for seamless integration.
- Gained hands-on experience in mobile development best practices and user-centric design.

## Academic Projects

---

**Quick Chat | Java, Android Studio**

- Developed a real-time chat application with secure login and user engagement features, using Firebase for authentication and real-time data synchronization.

**Your Food Pals App GUI | Dart, Android Studio**

- Created a recipe app with step-by-step instructions, vibrant imagery, and nutritional insights like calorie counts and dietary information.
